Allen College of Homoeopathy, England

Dr. Subrata Banerjea

Dr. Subrata Kumar Banerjea is an internationally respected teacher and clinical Homoeopath who has regularly lectured around the World since 1985. For three generations, the 'Banerjea family' has been recognised as authorities on Miasmatic Prescribing and Dr. Banerjea continues this tradition, now being acclaimed as the world-wide 'MASTER OF MIASMS'. Remaining true to the Hahnemannian, Allen and Kentian principles, Dr. Banerjea graduated in Homoeopathy from the University of Calcutta with a record number of honours marks in 9 medical subjects

He is also credited with 5 Gold Medals for his academic accomplishments.

An author by age of 24, Dr. Banerjea has written a number of books including Guide to Materia Medica, Clinical and Comparative Materia Medica. Synoptic Memorizers of Materia Medica, and the widely acclaimed Miasmatic Diagnosis. All of these books are published by B. Jain Publishers of India. But his latest book "Miasmatic Prescribing" is published by Allen College Of Homoeopathy in England. This new book gives a complete coverage on Miasms and includes interesting and informative chapters such as Miasmatic Repertory and Miasmatic Weightage of Medicines.

Dr. Banerjea's insights into prescribing, with his magnificent grasp of the nuances of Materia Medica, make his medical lectures wonderfully rewarding to any level of student. His particular gift is to combine practical Homoeopathy with profound intuition and the experience of three generations of Homoeopathic prescribers (he often quotes Ancestral Tips from his grandfather's personal clinical journals). His LIVING MATERIA MEDICA imitations for comparison of remedies, together with his incredible photographic memory, are rare treats to watch and hear!

Those who have studied with Dr. Banerjea in the past are amazed at the volume of practical and clinical Homoeopathy and Ancestral Tips he is able to impart even in so short a time as encompassed by a two-day seminar. He supports his lectures with extensive Lecture Notes and well-documented cases illustrated with slides, and always shares his 'gems' of Ancestral Therapeutic and Potency Tips.

Dr. Banerjea's international reputation, both as an inspiring teacher and a successful clinician is based on his extensive experience from his very busy clinical practice in which he often sees around 50 patients a day, when he visits India and act as clinical consultant. Such volume requires the use of extensive ready knowledge of Clinical and Comparative Materia Medica coupled with profound intuition and application of Clinical Tips and ancestral wisdom. His undoubted skill in rapid prescribing enables him to convey this clinical knowledge so well through his teachings. Dr. Banerjea is a popular, widely traveled lecturer and has lectured almost everywhere Homoeopathy is known.

Throughout his lectures Dr. Banerjea employs his extensive ancestral knowledge to give a strong emphasis on clinical and comparative Materia Medica, miasmatic interpretation in prescribing, the application of potencies, and tips on quick prescribing techniques.

DR. BANERJEA IS A HOMOEOPATHIC DOCTOR, B.H.M.S. FROM CALCUTTA UNIVERSITY (NOT A CONVENTIONAL MEDICAL DOCTOR AND DO NOT HAVE ANY CONVENTIONAL OR ALLOPATHIC BACKGROUND) ; DIRECTOR AND VISITING LECTURER OF THE BENGAL ALLEN MEDICAL INSTITUTE, CALCUTTA; PRINCIPAL AND CHIEF LECTURER OF MATERIA MEDICA, MIASMS AND CLINICAL THERAPEUTICS AT THE ALLEN COLLEGE OF HOMOEOPATHY, ESSEX, ENGLAND. HE RESIDES IN CHELMSFORD, ESSEX (ENGLAND). HE DIVIDES HIS TIME BETWEEN HIS CLINICAL PRACTICES IN THE UK AND ALSO PERIODICALLY VISITS INDIA WHERE HE ACTS AS CLINICAL CONSULTANT IN VARIOUS RURAL AND SLUM CLINICS; AS WELL AS DELIVER SEMINARS IN VARIOUS ACADEMIES IN DIFFERENT PARTS OF THE WORLD.
